

GENERAL INFORMATION

The purpose of Bio-Forge Advanced is to provide plant nutrition to promote plant growth and production.

DIRECTIONS FOR USE

It may be a violation of law to use this product inconsistent with its labeling.

RECOMMENDED USES

FOR SEED TREATMENT, IN FURROW and TRANSPLANT APPLICATION:

Apply as a seed treatment at 4 ounces per 100 pounds of seed for large-seeded crops or 4 to 8 ounces in furrow per planted acre for small-seeded crops. For transplants, apply to the soil or foliage starting with the transplant water or within 7 days of transplant or when seeded crops have 2 to 4 true leaves and continue through harvest.

FOR FOLIAR APPLICATION:

Field Crops: Alfalfa, bean crops, canola, clover, corn, cotton, forage grasses, peanut, potato, rape (canola), rice, sorghum, soybean, sugar beet, sugarcane, sunflower, tobacco, and wheat/barley/oat. Apply 0.5 to 1 pint per acre every 7 to 21 days.

Vegetable Crops: Artichoke, asparagus, beet, carrot, cruciferous, fennel, herbs, leafy vegetables, melon, onion/garlic, cucurbits, eggplant, pepper, strawberry, sweet potato and tomato. Apply 0.5 to 1 pint per acre every 7 to 21 days.

Fruit and Nut Crops: Almond, apple, apricot, avocado, berry crops, cherry, citrus, date palm, fig, filbert, grapes, hazelnut, hops, nectarines, oil palm, olive, persimmon, peach, pear, pecan, pistachio, plums/prune, pomegranate, subtropical fruit and walnut. Apply 0.5 to 1 pint per acre every 7 to 21 days until 10% bloom or after petals fall.

Field Grown Nursery Stock: Caneberries, strawberry, tree and vine crops and other grafted, clonal or vegetatively propagated stock plants. Apply 0.5 to 1 pint per acre every 7 to 21 days.

- SEED CROPS: Apply at the recommended rate prior to bud development and as needed during early reproductive stages to maintain vigor.
- POST HARVEST: Apply at the recommended rate to perennial crops postharvest.
- STRESS MANAGEMENT: Apply at the recommended rate before, during or after the onset of stress.
- DROUGHT PRECONDITIONING: Apply at the recommended rate 6 days before anticipated water restrictions.

MIXING INSTRUCTION: Follow this mixing order. (1) Water (2) Bio-Forge Advanced (3) Pesticide. Bio-Forge Advanced will disperse in water with little agitation. Bio-Forge Advanced is compatible with most fertilizers and pesticides. Always conduct a jar test when using new or untried combinations.

Notice: The information contained herein is true and accurate to the best of our knowledge and belief, but is presented without guarantee since field conditions and use are beyond our control. Neither the manufacturer nor the seller make any warranty, expressed or implied concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this material when such use is contrary to label instruction. Read and follow the label directions carefully.

CONDITIONS OF SALE: 1. Seller warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one, other than an officer of Seller, is authorized to make any warranty, guarantee of direction concerning this product. 2. Because of time, place, rate of application and other conditions of use are beyond sellers control, Sellers liability from handling, storage and use of this product is limited to replacement of product or refund of purchase price.
