## IMPROVING ABIOTIC STRESS RESISTANCE

The new patented Bio-Hold® is a synergistic combination of the field proven Bio-Forge® fortified with chelated Cobalt and Molybdenum, adding additional support during the plant's reproductive cycle. Bio-Hold application results in stronger plants, improved abiotic stress resistance, higher yields, increased crop quality and uniformity, and a longer shelf life after harvest.

### PRODUCT BENEFITS

- Reduce abiotic stress
- Promotes more efficient uptake and allocation of available nutrients
- Increased fruit hold
- Higher Brix
- Less fruit loss

## ACTIVE INGREDIENTS

### Total Nitrogen (N) 6.0%

2.5% Urea Nitrogen

3.5% Other Water Soluble Nitrogen

### Soluble Potash (K<sub>2</sub>O) 3.0%

### Cobalt (Co) 2.5%

2.5% Chelated Cobalt

### Molybdenum (Mo) 0.5%

## RECOMMENDED FIELD APPLICATIONS

For use on vegetable crops, fruit and nut crops, and field-grown nursery stock.

See the label for more information about specific crops, rates and timing.
