MAXIMUM YIELD

Foli-Zyme™ is a convenient liquid fertilizer solution containing calcium, potash and all amine nitrogen, a form the plant can use with maximum efficiency.

PRODUCT BENEFITS

- Applied with fungicide and insecticide applications, Foli-Zyme will supply needed nutrients
- Foliar applications of Foli-Zyme will assist in maintaining root health of a crop to reduce early dying caused by nutrient deficiency
- Foliar applications of Foli-Zyme will reduce issues associated with nitrate nitrogen; especially when combined with Stoller's Nitrate Balancer

ACTIVE INGREDIENTS

15-0-2

Total Nitrogen (N) 15.0%
Soluble Potash (K₂O) 2.0%
Calcium (Ca) 3.0%

8-0-3

Total Nitrogen (N) 8.0%
 8% Urea Nitrogen
Soluble Potash (K₂O) 3.0%
Calcium (Ca) 3.0%

RECOMMENDED FIELD APPLICATIONS

Use Foli-Zyme at the recommended rate on fruit and nut crops, field crops, and vegetable crops. See the label for more information about specific crops, rates, and timing.
