GENERAL INFORMATION

KEYLATE SUPER STARTER MIX is for soil and foliar application. It is readily available and rapidly absorbed by the root system or foliage. It is formulated to be used in fertilizer solutions. Broadcast or row applications are acceptable, although greater efficiency may be expected from row applications.

DIRECTIONS FOR USE

It may be a violation of federal law to use this product inconsistent with its labeling.

RECOMMENDED USES

KEYLATE SUPER STARTER MIX can be incorporated in liquid fertilizer or applied separately at the following rates:

- Maintenance application: 1 quart per acre
- Moderate micronutrient deficiency: 2 to 3 quarts per acre
- Heavy micronutrient deficiency: 4 to 5 quarts per acre

FOR FOLIAR APPLICATION:

Field Crops: Alfalfa, barley, canola, corn, cotton, flax, milo, oats, soybeans, sugar beets, sugar cane, wheat. Apply 1 quart per acre (2.4 liters per hectare) per application.

Vegetables: All beans, broccoli, cabbage, cauliflower, carrots, celery, lettuce, melons, onions, peppers, potatoes, peanuts, sweet corn, spinach, strawberries, tomatoes, turnips, watermelons. Apply 0.5 quart per acre (1.2 liters per hectare) per application.

Tree and Vine Crops: Almonds, apples, avocados, citrus, grapes, nectarines, pears, peaches, pecans, plums, walnuts. Apply 1 quart of **KEYLATE SUPER STARTER MIX** in 100 gallons of water.

▶ Do not exceed two quarts per acre per application for foliar sprays.

Foliar apply **KEYLATE SUPER STARTER MIX** in minimum of 20 gallons of water per acre (180 liters per hectare) through conventional equipment or 5 gallons of water per acre (45 liters per hectare) when using ultra low volume equipment.

MIXING INSTRUCTIONS: Follow this mixing order - (1) Water (2) **KEYLATE SUPER STARTER MIX** (3) Pesticide. **KEYLATE SUPER STARTER MIX** will disperse in water with little agitation. **KEYLATE SUPER STARTER MIX** is compatible with most fertilizers and pesticides. Always conduct a jar test when using new or untried combinations. The addition of 0.5% (total solution) of nitrogen solution, ammonium sulfate, or low biuret urea may aid leaf absorption.

Notice: The information contained herein is true and accurate to the best of our knowledge and belief, but is presented without guarantee since field conditions and use are beyond our control. Neither the manufacturer nor the seller makes any warranty, expressed or implied concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this material when such use is contrary to label instruction. Read and follow the label directions carefully.

CONDITIONS OF SALE: 1. Seller warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one, other than an officer of Seller, is authorized to make any warranty, guarantee of direction concerning this product. 2. Because of time, place, rate of application and other conditions of use are beyond seller's control, Seller's liability from handling, storage and use of this product is limited to replacement of product or refund of purchase price.

Always read and follow label instructions.
