

MICRO-PLUS™ ZINC

STOLLERUSA.COM

Micro-Plus™ Zinc is for soil and foliar application. It is formulated to be used with Stoller liquid fertilizers (Nitro-Plus™, Foli-Zyme™) and nitrogen solutions. When used with polyphosphate containing fertilizers, dilute with nitrogen solution before addition. Micronutrient deficiencies usually occur when plants are small; therefore, micronutrients should be added to the fertilizer at or before planting.

PRODUCT FEATURES/BENEFITS

- Aids in plant growth
- Corrects zinc deficiencies
- Compatible with other products

GUARANTEED ANALYSIS

Stoller products are designed to help plants function more efficiently. Stoller products are not replacements for sound agronomy and fertility programs. They work in concert with good farming practices to help the plant realize its true yield potential.

RECOMMENDED FIELD APPLICATIONS
