

Harvest More[®] Urea Mate

Harvest More[®] Urea Mate is the most complete fertilizer on the market with 11 key nutrients for optimal plant growth throughout the season. A plant's yield potential is only as strong as its weakest nutrient link. Harvest More Urea Mate is formulated to provide maximum nutrient availability and utilization throughout the essential growing phases of your crop.

PRODUCT FEATURES/BENEFITS

- Unique 5-10-27 formulation
- Take the guess work out of plant nutrition with a complete fertilizer package
- Low pH formulation – Recent data shows many in-season fungicide applications perform better in a slightly acidic pH environment
- Formulated for maximum compatibility and versatility of application

RECOMMENDED FIELD APPLICATIONS

Harvest More Urea Mate is formulated for the following highlighted applications

Foliar Irrigation

CONTAINER SIZE

25 lb Poly Bag

2000 lb Super Sack

ACTIVE INGREDIENTS

| | |
|--|--------|
| Total nitrogen (N) | 5% |
| 5.000% urea nitrogen | |
| Available phosphate (P ₂ O ₅) | 10% |
| Soluble potash (K ₂ O) | 27% |
| Calcium (Ca) | 4% |
| 4.000% chelated calcium | |
| Magnesium (Mg) | 1.5% |
| 1.500% chelated magnesium | |
| Boron (B) | 0.15% |
| Cobalt (Co) | 0.008% |
| 0.008% chelated cobalt | |
| Copper (Cu) | 0.3% |
| 0.300% chelated copper | |
| Manganese (Mn) | 0.5% |
| 0.500% chelated manganese | |
| Molybdenum (Mo) | 0.008% |
| Zinc (Zn) | 0.5% |
| 0.500% chelated zinc | |

Guaranteed Analysis

Stoller products are designed to help plants function more efficiently. Stoller products are not replacements for sound agronomy and fertility programs. They work in concert with good farming practices to help the plant realize its true yield potential.

Buyer assumes all risk of use of this material when such use is contrary to label instruction.

Harvest More[®] Urea Mate

GENERAL INFORMATION

HARVEST MORE UREA MATE 5-10-27 is a fertilizer with both macro and micronutrients in a readily available, water-soluble formulation. HARVEST MORE UREA MATE 5-10-27 is non-phytotoxic when used as directed.

DIRECTIONS FOR USE

It may be a violation of federal law to use this product inconsistent with its labeling. HARVEST MORE UREA MATE 5-10-27 can be applied foliar and/or via drip, flood, overhead, pivot, or micro irrigation systems; may also be applied in transplant water or drench or as a side-dress. Apply the recommended amount in a volume of water sufficient to provide uniform coverage.

RECOMMENDED USES

FOR FOLIAR APPLICATION: For all foliar applications, apply HARVEST MORE UREA MATE 5-10-27 in a concentration of 1 pound per 10 gallons of spray solution. Use caution if higher concentrations of HARVEST MORE UREA MATE 5-10-27 are utilized as it can significantly lower pH. Best if applied when avoiding high daytime temperatures.

Field Crops: Apply 1 to 5 lbs. per acre, every 7-14 days throughout the growing season.

Vegetables, Fruit, and Nut Crops: Apply 1 to 7.5 lbs. per acre, every 7 to 14 days throughout the growing season.

FOR FERTIGATION: Apply 2.5 to 20 lbs. per acre, every 7 to 14 days, depending on plant stage and vigor. Begin with lower rates after transplanting or when seeded crops have emerged, and continue application as needed.

Conditional higher usage rates have been established for certain crops; find these listed below*.

HARVEST MORE UREA MATE 5-10-27 applied at the above-recommended rates on the crops listed below:

FIELD CROPS: Alfalfa, all bean crops, canola, clover, corn, cotton, flax, forage grasses, pea, peanut, potato, rape (canola), rice, sorghum, soybean, sugar beet, sugarcane, sunflower, tobacco, and wheat, barley, oat, or other cereal grain.

VEGETABLE CROPS: Artichoke, asparagus, broccoli, cauliflower, cabbage, kale, and other cruciferous vegetables; leaf lettuce, head lettuce, dandelion, radicchio, arugula, and other leafy vegetables; cucumber, melon, pumpkin, squash, and other cucurbits, pea, onion, garlic, and other bulb vegetables; tomato, pepper, eggplant and other solanaceous vegetables; strawberry; carrot, sweet potato, radish, beet and other root and tuber vegetables.

FRUIT AND NUT CROPS: Apple, avocado, blueberry, and other bush berries; blackberry, raspberry, and other cane berries; sweet orange, lemon, mandarin and other citrus; date palm, fig, grapes, hops, oil palm, olive, persimmon, cherry, peach, peanut, plums, prune, nectarine, apricot, and other stone fruit; almond, pecan, pistachio, walnut, and other tree nuts; pear, pomegranate, and subtropical fruit.

*STRAWBERRY, CANE BERRY, AND BUSH BERRY - For drip or other fertigation methods, apply 2.5 to 30 lbs. per acre every 7 to 14 days, as needed for nutritional support of the fruiting cycle.

TURF AND NURSERY CROPS: All types of turf, including but not limited to Kentucky blue, Merion blue, bent, Bermuda, and Zoysia grasses. All species of ornamental trees, shrubs, and flower crops. Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk, or street back onto your lawn/ garden. This lawn fertilizer, which contains phosphorous, is intended only for nonagricultural use on (i) turf during its first growing season, (ii) turf areas being repaired or renovated, and (iii) turf where a soil test performed within the last 3 years indicates a phosphorous deficiency. This fertilizer is not intended for the routine maintenance of turf.

MIXING INSTRUCTIONS: Follow this mixing order (1) Water (2) HARVEST MORE UREA MATE 5-10-27 (3) Pesticide. HARVEST MORE UREA MATE 5-10-27 will disperse in water with little agitation. HARVEST MORE UREA MATE 5-10-27 is compatible with many fertilizers and pesticides. Always conduct a jar test when using new or untried combinations.
